### Section I: Personal Introduction

Why are you running for office in 2020, and what do you hope to accomplish?

With my degree in Microbiology I am appalled at the  
control, fear and panic being thrust on the people  
of NH. Add to this the previous actions of Governor Sununu  
signing bills in to law that are destructive to life and  
the family, it became clear to me that I had to  
answer the call to become your next Governor.

In addition to addressing the many challenges created  
by the government malfeasance of the past 50 months  
I will advocate and sign legislation that restores  
full respect for life from fertilization to natural  
death. I will advocate and sign legislation  
that fosters the best environment for our  
children, who are our future.
