1. In your own words, what is a hit-and-run quote?
2. What is the difference between a direct quote and an indirect quote?

When women don't have access to legal abortions, they often turn to more dangerous, sometimes lethal methods of ending the pregnancy. According to a recent article in the New York Times, "Approximately 78,000 deaths occur each year as a result of unsafe abortions" (Lee). In short, women will continue to have abortions whether the procedure is legal or not. If abortion was made illegal, women would then find illegal and unsafe ways to end the pregnancy, resulting in more deaths and health problems for women.
